NOTES:

Fees and commissions for services provided are calculated as a single payment on the service date or periodically depending on service type provided by OTP banka Srbija (further: The Depository) to the UCITS fund (further: The Client) in line with Operating rules of the Depository ID 8577 .

Beside its fees and commissions the Depository may charge the real - out of pocket expenses derived by service providing.

Fees and commissions for provided services become due for payment on the date when the service is provided.

Fees and commissions for services that are calculated and charged periodically, as well as the real costs-out of pocket expenses, will become due for payment on the date stated in the invoice. If the due date of the obligation is a not a business day, then the due date will be the first subsequent business day.

Fees and commissions in EUR are calculated according to the official middle exchange rate of the NBS, on the day of calculation. The fee amount does not include commissions for domestic or foreign payments, commissions of third parties, i.e. brokerage companies, stock exchange, the Central Securities Depository, the NBS and the Securities and Exchange Commission

Taxes are not included in the fees. It is charged specially on services subject of taxing according to applicable regulations.

If during servicing clients the Depository has certain "out-of-pocket expenses", such as administrative costs of processing clients documents in country or abroad, advertisements in the public media, extra charges of executing orders or instructions of the client, hiring third parties postal charges, travelling expenses, documents notarization, translations, third party costs and the like, the client is obligated to refund such costs in full amount according to invoices submitted.

In case the Client deposit at Depository, financial instrument which bears additional/hidden costs due to its or belonging market feature, the client is obliged to pay that cost in full amount.

If during servicing client of the Depository is charged for any tax other client's obligation linked to its financial instrument deposited at Depository, the client is obliged to refund such cost to the Depository in full amount.

The application of the tariff amount changes for provided Depository services is provided under the Agreement without signing a separate annex.

About each fees and commission change, the Depository will inform the Asset management company in written, by delivering new Tariff list as "special arrangement" proposal to be signed. In case the Asset management fails to deliver the proposed Tariff list as the "special arrangement" to the Depository within the seven days, for services provided to Client, the Depository will start to implement fees and commission amounts as stated by this Tariff list posted on its Web page.

Fees and Commissions for services provided by the Depository may vary and depend on:

- Market conditions and events where Depository operates,
- Service processing costs,
- Events derived by changes of Regulations, Decisions, Resolutions, Guidelines and other acts (regardless of law impact),
- Depository business decisions
- Other conditions which may affect Depository costs.

Fees and Commissions are calculated based on amounts stated in The Tariff list, unless the different amount and calculation method is contacted with Asset Management Company as a "special arrangement".

Tariff act 1. - Depository control operations fee

The formula and basis for its calculation is determined by the Securities and exchange commission Rulebook on open ended investment funds with public offer. Stated without VAT on annual level related to prescribed *Basis* in process of Net Asset Value (NAV) calculation.

* It is calculated on daily level per each calendar date referred to NAV calculation (further: day T) by following formula:

$$F_n = \frac{(BAV-L) \cdot M_n}{365,25}$$

The Basis value (BAV-L) for the Depository fee (M_n) from this Tariff list is calculated by subtracting all known UCITS fund's obligations (L) till the day T from the Gross asset value (BAV) on the day T.

By dividing *The Basis (BAV-L) times the Depository fee (M_n)* with 365,25, the result is Depository's daily fee amount F_n

The Depository fee is charged on monthly level as a sum of all Depository's daily fee amounts F_n calculated in recent month

Tariff act 2. - The Depository charges third party costs only

Tariff act 3. - Calculated daily and charged monthly per invoice.

For foreign markets the fees and commissions vary depending on belonging market of financial instrument.

The fees can be contracted separately per specific market, account or instrument type.

The fee is stated without VAT on annual level. It is calculated daily, but fee collection is monthly per account-portfolio.

The fee is applied on financial instrument value as valuation basis. It is calculated on the basis of actual days in a month and the calendar year of 360 days. Financial instruments quoted on market are valued daily by market price. Debt instruments as well as instruments with no market data are evaluated by its par value. Shares of companies under bankruptcy/liquidation have valuation basis zero.

In case calculated value is below minimal fixed amount in tariff list, than minimal fix amount will be charged unless it is contracted on different way. *Tariff is collected each month where daily basis on portfolio account is identified.*

Tariff act 4. - Calculated per transaction: on market or OTC.

Transaction value is a calculation basis.

For foreign markets it may vary from market to market and it is calculated per submitted or recalled Order.

Tariffs may be separately agreed for specific markets or financial instrument type. The Depository and the Asset management can contract fixed amounts or amount cap per transaction as a "special arrangement".

Tariff act 5. - Calculated per transaction

It is stated comparing to transaction-payment value.

It is charged on settlement date. It applies on dividends, coupon payments, share fractions, ADR/GDR fees and other incomes or expenses executed via Central Register or Sub-Custodian.

Not applied on principal amount on debt instrument redemption.

Tariff act 6. - Calculated per order

Applied only for service of receiving foreign financial instruments

For foreign markets the fee vary depending on belonging market of financial instrument. The fees may be contracted for specific markets, accounts or financial instruments type.

Not applied on:

- Receiving entitlements (RF), resulting securities from eligible holdings (such as rights, warrants or additional shares, other instruments distributed from issuer's profit).
- Receiving (RF) foreign financial instruments delivered from accounts with the Depository in case no third party-foreign depository is involved.

Tariff act 7. - Calculated per order

Related to the following transfers: change of depository, financial instrument transfers to accounts with other financial institutions transfers by contracts, resolutions and state institutions decisions. Calculated per submitting or recalling Order

Lower tariff is charged to ordering party only if transfer is handled between accounts with the Depository-internally, without involving third parties. For foreign markets the tariff vary depending on belonging market of financial instrument. The tariffs may be contracted for specific markets, accounts or financial instruments type.

Not charged if the transfer is *initiated by the Depository without The Orded from Asset Management*, for administrative purposes such as: Sub custodian change, additional account segregation or updating the balances as a corporate action results.

Tariff act 8. - Calculated per Order

It is displayed as fixed amount and it is charged on transaction settlement on domestic market. The Depository and the Asset management Company can contract it as percentage, fixed amounts or amount cap per transaction as a "special arrangement".

This tariff act is applied on transactions with domestic financial instruments initiated over the counter derived from corporate events from Law on Companies and Law on takeover of Joint Stock companies as well as on other transactions Depository may initiate within its legal authorization.

Not applied to foreign financial instruments.

Tariff act 9. - Calculated per Order

It refers only for services of acting per Asset management Order:

- a) Representing client before issuing company on domestic market related to corporate actions (electing on assembly, collecting documents.. etc.) in cases when Depository employee is hired by Client's Order. Not applied if representing service per Client's order is handled by third person-not employed in Depository. Fee is charged on Order day and out of pocket expences on completing activity.
- b) Tax reclaim service from foreign market via sub custodian based on Double Tax treatment. Fixed amount is charged on Corporate action order submitting and percentual amount as a success fee is charged from cash allocation Order i.e cash inflow from the reclaimed tax amount. The Depository and the Asset management may contract as a „special arrangement“ fixed or maximal success fee amount.

Not applicable on processing-administrating ordinary corporate events (share split and reverse split, rights distribution and execution, warrants, share fractions, dividend and coupon settlement, proxy vote, public offer participations, forced trading, etc.).

Tarifni stav 15-21. - Calculated per Order

Tariffs for domestic payments are applied in favour of residents and non-residents.

Tariff act 25-28. – Calculated per Order ***

**** SPECIAL NOTES FOR OPERATING WITH FOREIGN MARKETS**

Services on foreign markets are charged according to formed tariff groups containing the market list per country:

- GROUP "A"- Austria, Canada, Germany, Greece, Cyprus, Italy, France, Luxembourg, Netherlands, UK, USA
- GROUP "B"- Australia,Belgium,Denmark,Finland,Ireland,Japan,Norway,Portugal,Spain,Switzerland,Sweden
- GROUP "C"- Other markets: Hong Kong, Poland, Russia, Singapore, Thailand itd.
- GROUP "D" Regional markets: Slovenia, Croatia, North Macedonia,

The Depository retains the right to amend the tariff group and tariffs adjusting it with its business costs and market conditions
Market accessibility may vary due to Sub custodian activities and relations with third parties.

******* On submitting the fcy transfer Order to Depository, the Asset management company select the cost option (the way of paying participating financial institutions service fees): OUR or SHARED .

- I. **Option OUR** means all cost in fcy payments: Depository fee as well as other financial institutions participating in transaction ("third party cost") bears the ordering party, i.e. UCITS fund account from which the transfer is initiated. By selecting this option, the ordering party pays all costs to Depository on order execution, and beneficiary side is credited with the amount as stated in Order. On order execution, The Depository calculates and charges the third party cost to ordering party by following specification:

Third party cost amount	Order amount
1.200,00 RSD	0,00 - 5.000,00 EUR
1.400,00 RSD	5.000,01 - 12.500,00 EUR
2.400,00 RSD	12.500,01 - 25.000,00 EUR
2.800,00 RSD	25.000,01 - 50.000,00 EUR
4.800,00 RSD	50.000,01 i više EUR

- The Depository charges UCITS fond third party costs on spot for fcy transfers to accounts with other banks;
- In case of transfers to fcy account with the Depository (internal transfer), no third party cost will be charged;
- Third party cost is charged in RSD. If the ordering party, i.e UCITS fund has no RSD to cover this cost, it has a duty to secure it by converting available fcy;
- UCITS fund members, submitting the orders to OTP banka Srbija as payment bank are not affected by „special arrangement“ with UCITS or Depository acts. They are treated as regular clients who are affected by General Terms and conditions of OTP banka Srbija payment and fcy services.

- II. **Option SHARED (SHA)** means shared costs, i.r. ordering side pays only the Depository fee, while other participating financial institutions service fees, as third party costs bears the payment beneficiary. By selecting this option, other financial institutions participating in transaction collect its service fee from bsubject of transfer – amount from the Order. Beneficiary account is credited by amount from the Order deducted for thirs party fees. The Depository does not have data on third party costs and it can not forseen the egzact amount credited to beneficiary.

Applying this Tariff list terminates the validity of Vojvođanska banka a.d. Novi Sad-Depository: OD-PR-O-002/ ID 9506 Tariff list which was in application since 03.09.2020.
