The authorization to use additional cards is valid until revocation. The User may revoke the right to use the additional card by submitting a written request to the Bank, in which case the Bank will block the additional card.

The User or an authorized person accepts the additional card under the same conditions that apply to the User. All rules that apply to the User in terms of how to use the Card, giving consent to execute a payment transaction, report loss, theft or misuse of the Card, also apply to authorized persons, where it is understood that the User may set consumption limits for Additional Users.

Daily consumption limits determined by the Bank amount to:

Premium products, unlike standard products, are products that bear the label Platinum, Gold, Infinite, etc. in their name.

If FX funds are withdrawn at the Bank's ATMs, from the foreign currency account related to the debit card, the maximum daily limit may not exceed the previously defined daily limit for cash withdrawals, i.e. the limit changed at the request of the User. Foreign currency withdrawal transactions occupy the Daily limit for cash withdrawal according to the middle exchange rate of the NBS.

The maximum daily limit for cash payments at ATMs is RSD 1,000,000.00.

The fee for cash withdrawals at ATMs and POS terminals of other banks is prescribed in the Pricelist of fees.

The Bank is entitled to change the Card System with which it cooperates and / or change the Card Product within the same Card System during the validity of the Card and / or during the automatic reissuance of the Card. If the above case occurs, the Bank will, without additional costs, replace the Card used by the User and provide functionalities that correspond to the functionalities of the card to be replaced.

After the expiration date, the Bank may automatically issue new Cards.

If it has been determined that the User does not meet the conditions for reissuance and / or that before the expiration of the Card in the period of 6 (six) months or more, no transactions were made with the Card and / or any of the conditions for termination of the Framework Agreement have occurred, the Bank shall be entitled not to reissue Card.

The Bank may reissue the Card one or more times. If the User wishes to change the authorized persons, he/she shall be obliged to inform the Bank accordingly no later than 30 days before the Card expiry date.

The User informs the Bank of damage to the Card by going to the Bank's branch. In the event of damage to the Card or change of the User's personal data imprinted on the Card, the Bank shall replace the damaged Card upon Request of the User with submission of documentation for amending data, if the Card is being altered for this reason.

The debit card may be used up to the amount of Available Funds on the Accounts related to the Card, within the limits of spending defined by these General Terms and Conditions or in line with the User's request.

In the event that the Available Funds are exceeded for any reason, the exceeded amount will immediately be charged.

The Bank shall debit the Account individually for each executed payment transaction resulting from the use of a debit card together with all related costs and fees, in accordance with the Pricelist of fees.

Fees, commissions and costs charged by the Bank for services provided under the Framework Agreement in connection with the use of the Card are determined and calculated in accordance with the Pricelist of fees and are automatically charged from the Account.

Payment transactions with the Card in the currency of RSD, as well as fees, commissions and costs related to these payment transactions, are recorded in the currency of RSD. Payment transactions with the Card in a currency other than RSD are recorded in the EUR currency regardless of the currency in which the payment transaction incurred, while fees, commissions and costs related to these payment transactions, are recorded in RSD, irrespective of the currency in which the payment transaction was made.

If the payment transaction with Card was made in the original currency which differs from the EUR and RSD currencies, the conversion into the EUR currency is performed by the Card System at the official exchange rate applied by the Card System which is available on the official Card System website. The Bank has no influence on the formation of this exchange rate. If the conversion is performed upon fee payment, such fee is determined by the Pricelist of Fees. Fees expressed as a percentage for transactions in a currency other than RSD are calculated according to the calculation rate at which the Card System converts these transactions into RSD.

If the currency of the payment transaction is by EUR Card, the funds on the Account in EUR are debited for the amount of that payment transaction. If the Card is not linked to an EUR Account or in case of lack of funds in that Account to cover these amounts, the total amount of the transaction or the difference that is not charged from the Account in EUR shall be debited from the Account in RSD. For conversion from EUR to RSD, the Bank's foreign exchange rate on the day of the transaction shall apply.

If the currency of the payment transaction is the RSD Card, the funds on the Account in the currency of RSD shall be debited for the amount of that payment transaction. In case of lack of funds on the Invoice in RSD to cover these amounts, and an account in EUR is linked to the Card, for the total amount or for the difference that is not charged from the Invoice in RSD, funds on the Account in EUR shall be debited. For conversion from RSD to EUR, the Bank's foreign exchange rate on the date of the transaction is applied.

For all fees, commissions and costs related to these transactions, as well as for other fees charged by the Bank under the Framework Agreement in connection with the issuance and use of the Card, funds are debited on the Account in the currency of RSD. In case of lack of funds on the Account in the currency of RSD to cover these fees, the funds on the Account in the currency of EUR are debited. For conversion from RSD to EUR, the Bank applies its foreign exchange purchase rate on the due date of the fee.

The Bank is entitled to charge any due obligation under the Framework Agreement related to use of Card from funds on any account of the User held at the Bank, without a payment order.

For reasons of security and depending on security estimate, the bank may introduce spending limits on a daily and / or weekly and/or monthly level, limits by number of transactions, spending limits for transactions without card presence, etc. about which it informs the User through the agreed communication channel.

The Bank is not responsible in case the merchant as a provider of goods and services does not want to accept the Bank's Card and / or if due to incorrect use of POS terminals or technical problems, the payment transaction cannot be performed at the request of the User.

The Bank may issue the Card in physical and / or digital format. Direct debit can be single or multiple, with fixed or variable amounts. The Bank will perform direct debit in accordance with the terms and instructions provided by the payee. All payment transactions that are part of a series of payment transactions initiated by the payee on the basis of direct debit are considered approved.

## **XII General Terms and Conditions of Payment Transaction Performance**

### **Types of Payment Orders**

Payment transactions through current and other payment accounts for payment operations are executed using appropriate payment orders which represent instructions of the payer or payee requesting the execution of the payment transaction. The NBS prescribes the form, content and manner of using the form of payment orders for the execution of domestic payment transactions in dinars through a current account. The payment order submitted by the account holder to the Bank must be completed in accordance with the regulations and standards applicable in the payment system, namely: the payment order, disbursement order and the transfer order.

The user issues payment orders for domestic payment transactions in paper form, in electronic form via Electronic or Mobile Banking Service, using Cards at POS terminals and ATMs, as well as for online payment, QR code as well as on another way agreed with the Bank or in accordance with applicable regulations.

The User is obliged to submit payment orders in paper form in the manner determined by the Bank.

Forms of payment orders for payment, disbursement and transfer are issued on paper and may be executed even if lacking some of the foregoing elements, provided that the Bank determines that the elements specified in the payment order are sufficient for its execution.

The electronic payment order is executed in line with Special Terms and Conditions.

The user issues payment orders for international payment transactions in Serbian or English in paper form, whereby the data must be filled in on a computer or other device that enables the printing of such data.

In order to perform international payment transactions, the User issues payment orders and submits documentation in accordance with the regulations governing the conditions and manner of performing international payment transactions.

International payment transactions are performed with payment instruments used in international payment operations, with the application of international rules and standards in the field of banking, as well as by orders, in accordance with regulations governing the terms and conditions of performing international payment operations.

The Bank performs a payment transaction initiated by order only if the User has ensured sufficient funds on the account for the execution of payments, which includes the Bank's fee which is calculated and charged in accordance with the Pricelist of fees.

#### **User consent for performance of payment transaction**

The Bank executes payment transactions only if the payer has given his/her consent for its execution.

The User gives consent for the execution of the payment transaction:

- By signing a paper payment order, and, in the case of cash payment by signing the payment order and handing over the amount of cash required for the execution of the payment order,

The transaction is processed (the validity of the Card is checked, the Card is blocked, the account is covered, etc.) after giving consent for the execution of the transaction by the User and, depending on the results of processing, the transaction is either approved or declined.

The User at the point of sale, i.e. payment point, receives a notification about the failed / rejected transaction.

A payment transaction for the execution of which consent has been given in the foregoing manner is considered an authorized payment transaction, i.e. transaction approved by the User as a payer.

#### **Receipt of Payment Order**

The Bank accepts payment orders in accordance with the provisions of these General Terms and Conditions, the agreement on opening and maintaining accounts and / or the provisions of special agreements and the Special Terms of Use of certain payment services provided which the Bank provides in connection with Accounts. The bank determines the fulfillment of the conditions for the execution of the payment order at the time of its receipt. The payment order will be executed if these conditions are met, as well as if the Account at the time of execution of the payment order contains sufficient available funds for its execution.

In case of submission of data or payment order by the User via means of remote communication, the Bank shall not be liable for damages that may occur due to the chosen method of data delivery and / or payment order. The bank will receive a payment order if it is correctly filled in, legible and authorized in the agreed manner. The execution of the payment order itself depends on the time of receipt of the payment order in accordance with the Time Schedule.

It is considered that the Bank has received payment orders if they are submitted within working hours of the Bank, defined as a Business Day by the valid Time Schedule which determines the time of receipt and execution time of payment orders. All orders received during the Bank's business day, but after the time of receipt of the payment order determined by the Time Schedule, are considered received on the next business day of the Bank. In the case of instant payment, it is considered that the Bank received the order for instant transfer of credit at the time when the Bank created the order for instant transfer in the IPS payment system.

If the User and the Bank determine that the execution of the payment order begins on a certain day or on the day at the end of a certain period or on the day when the payer makes funds available to his/her payment service provider - it shall be deemed that the payment order was received on that determined day. If that day is not a business day of the payment service provider, it shall be deemed that the payment order was received on the next business day of that provider.

For payment transactions initiated by Card, the time of receipt of the payment order is the time when the payment transaction with the Card, authorized by the User, arrives at the Bank for execution following clearing in the Card System and after debiting the Bank's clearing account.

If the User and the Bank determine that the execution of the payment order starts on a certain day or on the day at the end of a certain period or on the day when the payer makes funds available to his payment service provider - it shall be considered that the payment order was received on that day. If that day is not a business day of the Bank, it shall be considered that the payment order was received on the next business day.

The payment order will be executed in accordance with the Time Schedule.

The payment order for domestic payment transactions in the transfer of credits for which there is no coverage on the execution date shall be executed by the Bank upon providing coverage for its execution and no later than the second business day from the day of receipt of the order. Exceptionally, orders for execution of instant transfer credit for which there is no coverage on the date of execution and at the moment of receipt, will be declined.

For payment transactions by payment card, the debit date of the Account may differ from payment transaction date. The Bank shall debit the User's account to which the payment card is linked once it receives a debit order from the payee's service provider. The Bank shall temporarily provision funds on the User's account for the transaction credited by the payment card, as well as for fees, commissions and expenses, where it is understood that the User is aware that the provisioning amount may differ from the final debiting amount. By provisioning funds, the Available Funds on Account will be reduced. The deadlines defined by the rules of card systems apply to the execution of transactions by payment card. The debit order may be executed without prior provisioning, i.e. if the debit order arrives once the Bank releases funds from provisioning. In the case of payment transactions initiated by a payment card, possible litigation arising from the quality and delivery of goods and / or services, material defects of goods and / or services, shall be resolved between User and the Merchant at the point of sale or by written correspondence depending on the type of payment. The Bank is not liable for any damage caused to the User as a result of non-fulfillment of obligations by the merchant. The user is responsible situations involving use of payment card, which is accepted at the ATM, POS terminal, merchant's website or other way of accepting the conditions, depending on the type of payment.

If the payment order is initiated through a direct debit payment service, the Bank will execute the payment order only with the consent of the payer who can give it to the payee - his payment service provider or the payee's service provider.

Acts from the enforcement procedure, i.e. forced collection, demands of the Pension and Disability Insurance Fund, demands of the foreign pension fund and other competent authorities for collection / refund of funds from the User's Account cannot be performed from the funds of the Permitted Overdraft.

The Bank is authorized to collect any financial obligation of the User towards the Bank from Available Funds from all Accounts opened at the Bank, by automatic debiting of the Account. If the User holds several Accounts (dinar or foreign currency), the Bank is authorized to determine at its own choice the order in which it shall transfer funds to collect its receivables from the User, including the redemption of funds for effective money from foreign currency Accounts at the Bank's purchase rate on the day the Bank redeems for the purpose of collection of due obligations of the User. In case of collection of foreign currency receivables of the Bank from dinar accounts of the User, the selling rate of the Bank for foreign exchange for effective money on the day of debiting shall apply. If the User holds several dinar and/or foreign currency accounts at the Bank, he shall agree that the Bank may mutually set off the active and passive balance.

### **Payment Order Revocation**

The User may revoke a payment order at any time prior to the irrevocability of that order by withdrawing the consent to execute a payment transaction or series of payment transactions so that any future payment transaction in the series is considered non-authorized. Regarding transactions initiated by Card, the payer may not revoke the payment order, after authorization of transaction in one of the ways defined in section Consent of the User for the execution of a payment transaction of these General Terms and Conditions, unless the User reaches a different agreement with the Bank. If the User has given consent for a payment transaction through the point of sale, the transaction may not be revoked without the consent of the point of sale in a form and content acceptable to the Bank.

The transaction for which consent is entered by password on the internet or entering PIN at ATMs or POS terminals shall be considered irrevocable.

If the Bank refuses to execute the payment order for the above reasons, it is considered that the payment order has not been received.

The Bank shall provide this notice to the User without delay, or within the deadlines set for the execution of the payment order at the latest, by direct communication or the agreed communication channel.

Regarding payment transactions made by the IPS payment system, if the Bank, as the payer's payment service provider, has received the notification referred to in paragraph 1, indent 9, it shall immediately notify the User as the payer, through the agreed communication channel and, if possible, on the reasons for refusal, unless such notification is prohibited by regulation, provided that the Bank is obliged to immediately refund the amount from the payment order, or to release the provisioned funds in his payment account, if these funds were provisioned for the execution of this account.

Without delay, through the agreed communication channel, the Bank inform the User that the funds on the basis of the refund have been made available to him.

For the purpose of smooth, safe and efficient use of the payment instrument issuing the request for payment at the point of sale, the Issuer and the Bank shall take all reasonable measures and cooperate with each other regarding the use of this payment instrument, exchange of documentation and evidence related to resolving the request for refund, as well as corrections of possible errors on the part of the User and the Merchant that are unrelated to the request for refund based on that use.
